

Suggested Running Stores

Running shoes are the single most important piece of equipment your runner needs to consider. Walking, basketball, or skateboarding shoes will not suit the activities of your Track and Field athlete. Running shoes come in a variety of styles such as neutral, stability, and motion control. It is important to purchase the proper shoe for your runner and his/her running style.

Here are some things to consider when buying a shoe:

- What is the purpose of the shoe? (training or racing)
- Does the runner run on the inside or outside of his/her foot?
- Is it comfortable for the runner?

Here are some suggested running stores and locations: Most stores will offer a 20-30% discount. Just let them know you run for your high school team!
