TITLE 1 MATH PARENT PERMISSION

October, 2012

Dear Parents/Guardians,

Title 1 is a federally funded program that seeks to help children who are having difficulty in reading and/or math. NWEA scores from both spring and fall as well as teacher referral are used to determine which children may benefit from the Title 1 program

Your child _____ qualifies at this time to receive supplemental help in math from our Title 1 program. He/she will work in a small group of four to six children. The focus of the group will be number sense, basic computation skills and strategy practice, and extra time with grade level concepts.

You can help us with this process by reading the compact carefully and reviewing it with your child. Additionally you can support your child by creating a good learning environment at home. We will do our part by creating high-quality curriculum and instruction.

Please feel free to contact your child's classroom teacher or the Title 1 teacher if you have any questions about your child's participation in our Title 1 math program. We are asking you to fill out and return the bottom of this form.

Sincerely,

Classroom teachers and Title 1 math teacher:

Jennifer Stoa 763-477-5837 x1430 stoaj@rockford.k12.mn.us

_____ I want my child, _____, to receive Title 1 help in **math**.

_____ I do not want my child, _____, to receive Title 1 help in **math**.
